## New impulses

In the upcoming autumn/winter season, 2 more colours are being added to our Fleece Collection. For babies and children, a red tone is finally returning to the Collection with strong Jasper Mélange.

We were happy to respond to the often-expressed wish for a light earthy colour, and are delighted to be presenting our elegant shade of Sand Mélange. Alongside existing baby articles, there will also be selected garments for adults in this gorgeous colour: The fashionable short jacket and sporty blouson are supplementing the Ladies' Collection. The gentlemen are spoilt for choice – a jacket or a blouson?

Because this isn't enough for us, our men's classic fleece jackets with recycled zip are now also available in the warm, autumnal shade of Cinnamon Mélange.

And to make sure that things stay cosy on the sofa too, we have added a large blanket in Cinnamon Mélange to the range.

We hope you have fun discovering our new products.

## Engel

For over 40 years, we at Engel have been making underwear and clothing in natural fibres to the highest ecological and social standards through every stage in production. Customers particularly appreciate the high quality and natural character of the materials as well as the excellent manufacture. Our cotton is certified organically grown. Our merino wool is obtained from certified organic livestock. Engel underwear and clothing are manufactured using certified ecological and socially responsible processes, from the raw fibres to the end product, and are made exclusively in Germany. The short transport distances in production and the use of solar energy and hydraulic power allow us to reduce CO<sub>2</sub> emissions. 93% of these items are certified to NATURTEXTIL-IVN certified BEST (IVN BEST) or to the Global Organic Textile Standard (GOTS). Engel products are ecologically consistent in every detail – for the love of our skin and the environment.

Vera Kolompar and Gabriele Kolompar, the 3rd and 4th generation of CEOs in the main building in Pfullingen

# We take the responsibility, so you can feel confident

## **IVN BEST (Lic. no. IVN BEST: 151702)**

The "NATURTEXTIL IVN certified BEST" (IVN BEST) quality symbol is awarded to textiles that are made completely from organically produced natural fibres. The certification takes into account all the environmental effects of the entire production process, from production of the fibres to the finished garment, along with the prescribed social welfare standards in the companies involved in the process.

In terms of environmental compatibility, social sustainability and credibility, IVN BEST meets the highest ecological standards that can currently be achieved in the textile industry.

## **GOTS (Lic. no. GOTS: 151702)**

Textiles that are made from at least 70% to 100% organically produced natural fibres are eligible for the award of the Global Organic Textile Standard (GOTS). Certification of products is based on fulfilment of environmental requirements along the entire textile production chain plus compliance with social welfare criteria. The GOTS requirements are slightly below those of IVN BEST.

## **Made in Germany!**

We produce our clothing exclusively in Germany in accordance with the highest ecological and social criteria.

The mixture of merino wool and silk that is typical of Engel

## **Material and availability**

The items in merino wool/silk and in pure merino wool are machine-washable. This is thanks to the award-winning finish Naturetexx®, which uses no harmful or toxic chemicals whatsoever and preserves the natural properties of the fibres.

As ever, our wool consists of 100% certified pure organic merino wool.

All Engel products are available year-round from stock (NOS).

**Quality, the earth and humans in harmony.**  
Textiles from the Engel family, for a better tomorrow.

How beautiful the world could be if it was already ecological, human, near.

Come and see us at Engel and discover a family firm that focuses on your needs and the needs of our planet. Let our passion for quality and sustainability inspire you, and become part of our angelic community. Together, we work exclusively with high-quality sustainable materials that are good for you and for our planet. Here, the quality (of life) is right. We feel that open communication and equality are vital. We are people who know each other personally – and our production methods are socially responsible, inclusive and to the highest standards.

We love the results which we achieve as a team – from the designer to the sewer, from the purchasing manager to the storekeeper. When real men sew on buttons and clever women plan fabrics and everything runs smoothly, it's more than just a job for us. We are committed to short pathways, fair working conditions and outstanding quality. It's worth it!
